Docket Number: 2:94CR00371-02
PETITION TO MODIFY THE CONDITIONS OR TERM
OF SUPERVISION WITH CONSENT OF THE OFFENDER

02/08/2005: After the defendant tested positive for cocaine (12/28/2004 and 01/29/2005), the supervising probation officer placed the defendant back into their drug aftercare program and directed him to attend 90 NA meetings within 90 days. No formal action was recommended and the Court approved the probation officer's plan.

PETITIONING THE COURT

To modify the conditions of supervision as follows:

Norman L. Meadows, as a condition of supervision, shall submit to one drug test within 15 days of release from imprisonment and at least two periodic drug tests thereafter, not to exceed four tests per month, as directed by the probation officer, pursuant to 18 USC 3583(d).

Justification: Mr. Meadows is being supervised by the United States Probation Office in the Central District of California. In light of the Ninth Circuit Court of Appeals' finding in United States v. Stephens (9th Cir. 2005), the supervising probation officer is requesting the above-mentioned modification. Their interpretation of the Stephens case limits the probation officer to only three random drug tests outside of treatment, unless the Court sets the maximum number of tests. The three random drug tests provided by the conditions of supervision have been exhausted and Mr. Meadows' history warrants continued monitoring. Therefore, it is recommended that the Court set the maximum number of tests for the continued treatment at four tests per month. This schedule would allow the probation officer to continue monitoring for illicit drug and/or alcohol abuse; provide intervention if needed; and reduce risk to the community. The defendant has agreed to this modification and a signed waiver is on file.
